	4:00-4:45	Pre-Teen/Teen Pre Comp Tap	4:45-5:30	PE Tap		

Schedule Subject To Change Based On COVID-19 Measures

COVID-19 Guidelines

Please note the Lobby will remain closed to everyone other than dancers and staff, as well as the change room until further notice. We ask that students wait in their cars prior to their class times and come already dressed in proper attire.

Entering the Building

- Students will start to be allowed into the studio approx. 5 min prior to their start time.
- We ask parents to escort their dancer to the doors to ensure they have entered the studio safely.
- Students will have their temperatures taken with a forehead scan and will be screened for any symptoms. **Please keep dancers home if they are unwell!**
- Shoes will be taken off and put inside their own dance bag (please provide an extra bag for this, so they don't get their dance shoes dirty)
- Dancers will be provided with hand sanitizer when entering the lobby
- Dancers will follow the arrows to their specific dance room and be greeted by their instructor who will explain where to stand in the room.

During Class

- Dancers will be allotted a 6 X 6 square in the centre of the room as well as a spot at the barre (if needed). This square/bar spot will remain their own area for the entire class
- Dancers will put their dance bag at their spot at the bar. They are able to bring their water bottles with them to their square.
- Masks are NOT mandatory, but dancers are able to wear them if they like- please note that a dancer may become light headed by wearing a mask while doing physical activity.
- ACRO teachers will all wear masks while teaching to help with spotting
- Each dancer must use hand sanitizer when entering or leaving the classroom, this includes using the restroom facilities
- At the end of the class the dancer will be able to collect their belongings and will be let out at staggered times, so we can maintain physical distancing throughout the lobby as well.
- We ask parents to meet their dancers outside the front doors at the end of class.

Other Pre-Cautions

- High trafficked areas/surfaces will be sanitized with hospital grade products between groups. Ie. Door handles, bars, dance floors and restrooms after each use.
- Designated restrooms will be assigned per studio
- Lobby and change room will be closed to all dancers
- Doors will be locked between classes to monitor people coming in and out of the studio
- Please make an appointment with the front desk admin if you are needing to come into the studio
- Same screening pre-cautions for dancers will be followed for everyone entering the studio (including staff and parents)
- Staggered start times
- Class times are shorter- due to less students in the classes with more individual attention being provided. As well as permitting time to properly sanitize studios between groups.
- 1st steps, tiny tots, 2nd steps and primary 1 classes will purchase (nominal fee) their own supplies for class that they will bring with them each week.
